# DESIGNED SPECIALLY FOR CAR PARKS

---

A car park is a customer's first interaction with a building. It's the place that marks the beginning (as well as the end of their journey), so it needs to make a good impression. A bright, colourful and well-lit car park will lift a driver's mood, make them feel welcome and more excited about the experience ahead.

Jotun's COMPLETE CAR PARK SOLUTION is a one-of-a-kind collection of innovative paints created to protect and breathe life into car parks, turning navigation and parking into a pleasure for drivers.

## THE PARKING JOURNEY

---

Let's take a tour and see how a Jotun-painted car park affects a driver's experience.

1

# MAKE » A GRAND ENTRANCE »

As you enter the Jotashield-painted car park, you instantly feel the difference. The inviting entrance and bright walls lighten your mood and give you a clearer view across the carpark. The reflective paints guide you in, encouraging you to drive in further and search for that perfect parking bay.

# EXIT AND REMEMBER

---

As you exit, you'll notice that the same silent helping hands that guided you in, helped you park safely and made everything feel that much cleaner and brighter, are now guiding you safely out again. And as you drive off, you look in the rear-view mirror, and realise what a pleasurable experience it's all been.
